# Correlation Engine Customer Release Notes

## Version 2.6.1

### August 14, 2025

# Introduction

These Release Notes detail the latest release of Correlation Engine, including known issues.

Correlation Engine provides an interface with tools and content for exploratory, preclinical, and early translational research in drug discovery and biotechnology research. The software is a multidimensional integration platform designed to search and correlate global collections of heterogeneous, large-scale experimental data across diverse platforms, organisms, and therapeutic areas.

**NEW FEATURES:**

- None

**FIXED ISSUES:**

- Fixed an issue where bookmarks showed incorrect URL
- Fixed an issue where sequence centric uploads required the selection of an experiment type
- Fixed an issue that prevented protein-DNA binding and histone modification datatypes to be added to histogram visualizations in Meta-Analysis

**KNOWN ISSUES:**

- None
